(c) *Guideline harvest level.* (1) The annual GHs for Regulatory Areas 2C and 3A are determined as follows:

(E) 11,425,000 lb (5,182.3 mt)	2,008,000 lb (910.8 mt)

(2) NMFS will publish a notice in the FEDERAL REGISTER on an annual basis announcing the GHL based on the table in paragraph (c)(1) of this section for Area 2C and Area 3A for that calendar year after the IPHC establishes the constant exploitation yield for that year.

(3) The announced GHLs for Area 2C and 3A are intended to be the benchmarks for charter halibut harvest in those areas for the year in which it is announced pursuant to paragraph (c)(2) of this section. NMFS may take action at any time to limit the charter halibut harvest to as close to the GHL as practicable.

(d) *Charter vessels in Area 2C and Area 3A*—(1) *General requirements*—(i) *Logbook submission*. For a charter vessel fishing trip during which halibut were caught and retained on or after the first Monday in April and on or before December 31, Alaska Department of Fish and Game (ADF&G) Saltwater Sport Fishing Charter Trip Logbook data sheets must be submitted to the ADF&G and postmarked or received no later than 14 calendar days after the Monday of the fishing week (as defined in 50 CFR 300.61) in which the halibut were caught and retained. Logbook sheets for a charter vessel fishing trip during which halibut were caught and retained on January 1 through the first Sunday in April, must be submitted to the ADF&G and postmarked or re-

ceived no later than the second Monday in April.

(ii) The charter vessel guide is responsible for complying with the reporting requirements of this paragraph (d). The employer of the charter vessel guide is responsible for ensuring that the charter vessel guide complies with the reporting requirements of this paragraph (d).

(iii) If halibut were caught and retained in IPHC Regulatory Area 2C and Area 3A during the same charter vessel fishing trip, then a separate Alaska Department of Fish and Game Saltwater Sport Fishing Charter Trip Logbook data sheet must be completed and submitted for each IPHC regulatory area to record the halibut caught and retained within that IPHC regulatory area. The completed logbook sheets for each IPHC regulatory area must indicate the primary statistical area in which the halibut were caught and retained.

(2) *Charter vessels in Area 2C*—(i) *Daily bag limit*. The number of halibut caught and retained by each charter vessel angler in Area 2C is limited to no more than one halibut per calendar day.

(ii) *Charter vessel guide and crew restriction*. A charter vessel guide, a charter vessel operator, and any crew member of a charter vessel must not catch and retain halibut during a charter fishing trip.

(iii) *Line limit*. The number of lines used to fish for halibut onboard a vessel must not exceed six or the number of charter vessel anglers, whichever is less.

(iv) *Recordkeeping and reporting requirements in Area 2C*. Each charter vessel angler and charter vessel guide onboard a vessel in Area 2C must comply with the following recordkeeping and reporting requirements (see paragraphs (d)(2)(iv)(A) and (B) of this section) by the end of the day or by the end of the charter vessel fishing trip, whichever comes first:

(A) *Charter vessel angler signature requirement*. Each charter vessel angler who retains halibut caught in Area 2C must acknowledge that his or her information and the number of halibut retained (kept) are recorded correctly by signing the Alaska Department of

(1) *Guide license number.* The Alaska Department of Fish and Game sport fishing guide license number held by charter vessel guide who certified the logbook data sheet.

(2) *Date.* Month and day for each charter vessel fishing trip taken. A separate logbook data sheet is required for each charter vessel fishing trip if two or more trips were taken on the same day. A separate logbook data sheet is required for each calendar day that halibut are caught and retained during a multi-day trip.

(3) *Angler sport fishing license number and printed name.* Before a charter vessel fishing trip begins, record for each charter vessel angler the Alaska Sport Fishing License number for the current year, resident permanent license number, or disabled veteran license number, and print the name of each paying and nonpaying charter vessel angler onboard that will fish for halibut. Record the name of each angler not required to have an Alaska Sport Fishing License or its equivalent.

(4) *Number of halibut retained.* For each charter vessel angler, record the number of halibut caught and retained.

(5) *Signature.* Acknowledge that the recorded information is correct by signing the logbook data sheet.
